

Phenom 100

The Phenom 100 seats four passengers in a club formation including large tables, making enroute business meetings comfortable and easy. The crew will ensure everyone enjoys their time on board with light refreshments and hot or cold beverages.

Boasting an impressive 55 cubic metre rear baggage compartment and fully enclosed chemical flush lavatory this aircraft is the perfect choice for short haul journeys or movement of parts around regional Australia.

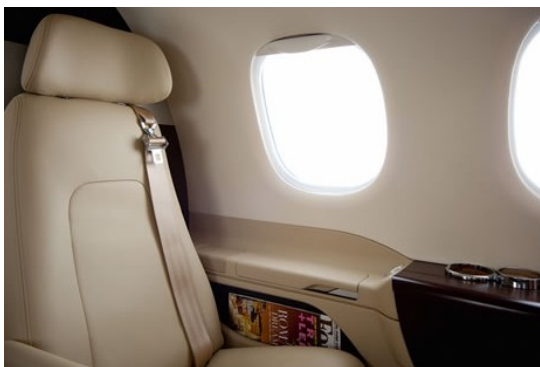

This aircraft is certified for single pilot operation which increases its capacity to 5 passengers.

Revesco's Phenom 100 is the benchmark of a light business airplane where all passengers arrive at their destination, safely – on time and in comfort.
